3. Background

3.1 The year-long Diploma in Construction Programme was launched in September 2017. It aims at providing specific technical training and fundamental engineering management training for young people who have completed secondary 6 studies under the New Senior secondary academic curriculum, so as to equip and prepare them as knowledge-based technical personnels and further develop their career path as specialist trade supervisors.

3.2 After completing the year-long Diploma in Construction Programme, trainees will receive job placement by the HKIC and be admitted to this programme. The employer who participate in this programme is required to sign an “employment contract” with the trainees and pay their wage on a monthly basis. During the two-year training period, apart from providing training allowances for the trainees, this programme will also train them to become knowledge-based Senior Tradesmen through HKIC’s enrichment programme, which integrates technical assessment and technical enhancement training, safety training, soft skills enhancement, as well as technology

and innovation. At the same time, the trainees will also participate in the traineeship training and designated programmes offered by the Vocational Training Council (VTC).

4. Nature of the Programme

4.1 The targets of this programme are graduates of HKIC's Diploma in Construction Programme, who aim to develop their career path as specialist trade supervisors. 5.3 Trade Division

There are 13 subsidized trade divisions under this programme. For details, please refer to Annex 1.

5.4 Length of Training

The training period of this programme is 2 years.

5.5 Required Wage for Employing Trainee

- 5.5.1 The employer shall enter into a contract of traineeship with the trainee and pay their wage on a monthly basis. At the same time, the monthly wage shall not be less than the amount specified by the HKIC, which is HK\$14,000 for the first year and HK\$18,000 for the second year. The monthly wage paid by the employer to the Bar Bender and Fixer trainee shall be not less than HK\$18,500 for the first year and not less than HK\$23,000 for the second year.
- 5.5.2 The employer is required to submit trainee attendance and wage payment records (please refer to Annex 4) together with third-party payroll proof, such as bank transfer records, bank statements, MPF (Mandatory Provident Fund) reports, and other documents to the HKIC every month.

5.6 Monthly Training Allowance, Tuition Allowance for Trainees and Employer Bonus

- 5.6.1 The HKIC will provide training allowance of up to HK\$3,500/month (first year) and HK\$4,000/month (second year) to eligible employers.

Details are as follows:

The maximum amount of the total allowance is $(\text{HK}\$3,500 \times 12) + (\text{HK}\$4,000 \times 12) = \text{HK}\$90,000$

- 5.6.2 If the employer fails to pay the specified wage as required, the HKIC will suspend the payment of the relevant allowance until the employer provides a reasonable explanation or repays the specified wage owed.
- 5.6.3 The allowance is calculated on a pro-rata basis of the employee's monthly wage. If the employer has paid for the employee's leave days, the allowance will be paid in full for the relevant days. If the employer does not pay for the employee's leave days, the employer will not receive the allowance for the relevant days. For instance, if an employee applies to injury leave, sick leave or maturity leave, and the employee pays four-fifths of the relevant wage, the employee will receive four-fifths of the allowance. If the employee's leave is not paid by the employer, the employer will not receive the allowance for the relevant leave period.
- 5.6.4 Training allowance for the trainees will be calculated based on the actual number of working days. For full attendance, a full monthly training

allowance will be issued. The deduction of allowance for absence at work is calculated based on 25 working days per month.

Calculation Example (Take first year of training, trainee allowance of HK\$3,500 as an example):

If the actual number of working days of the trainee in a month is 20 days, the following allowance will be issued to the employer:

$$\text{HK\$3,500} - \text{HK\$3,500} \div 25 \times 5 = \text{HK\$2,800}$$

5.6.5 If the employer/trainee withdraws from the programme with a reasonable justification that is accepted by the HKIC, the HKIC will issue training allowance in proportion up to the last working day of the trainee, and will not recover the training allowance issued previously. If the programme is terminated without a reasonable justification, the HKIC reserves the right to recover from the employer the trainee training allowance that has been paid.

5.6.6 The HKIC will pay the tuition fee for trainee enrolled the HKIC's Part Time Diploma in Construction Programme or the HKIC's Professional Diploma in Construction Programme on behalf of the employer:

(i) The HKIC's Part Time Diploma in Construction Programme

The HKIC will fully subsidize the first year's tuition fees and 50% of the second year's tuition fees. The remaining 50% will be paid by the employer.

(ii) The HKIC's Professional Diploma in Construction Programme

The HKIC will fully subsidize the tuition fees for three years.

5.6.7 Starting from May 1, 2023, the employer will receive a bonus of HK\$ 10,000 for each trainee successfully trained to become a skilled worker.

5.6.8 During the 24-month programme period, if the HKIC finds that the employer is in breach of the provisions of this Agreement or the relevant laws of the Hong Kong Special Administrative Region (HKSAR), the HKIC will formally write to notify that the employer shall rectify the problem and report to the HKIC within the prescribed time limit (one month in general). Otherwise, the HKIC will terminate the Agreement and stop issuing any allowance immediately, and put the relevant employer on the watchlist. The HKIC has the right to recover all the allowances that have been issued.

5.7 Trainee Assessment and Bonus

- 5.7.1 For trainees (based on a two-year training period), upon completing 12 months of training and passing the mid-term assessment, the trainee will receive a bonus of HK\$ 24,000 and continue the remaining 12 months of training. This bonus will be paid directly to the trainee by the HKIC. Please refer to Annex 21 for the "Trainee Allowance Processing" form. If the trainee fails the mid-term assessment, the HKIC will provide one retake opportunity. If the trainee fails the retake, the training program will be immediately terminated.
- 5.7.2 After completing the aforementioned assessment, trainees can commence their second year of training. In the 24th month of training, the HKIC will arrange for trainees to participate in the graduation assessment. Trainees who pass the assessment and register as senior tradesmen (i.e., "skilled workers") will receive a bonus of HKD 30,000 from the HKIC. Please refer to Annex 21 for the "Atrainee Allowance Processing" form. If the trainee fails the graduation assessment, the HKIC will provide one retake opportunity. If the trainee fails the retake, they will not be awarded a graduation certificate and will not qualify as a senior tradesman.
- 5.7.3 If a trainee is absent from the Enrichment programme and fails to submit a reasonable written explanation and supporting documents within 10 working days after the course date, it will be considered an unexcused absence. The HKIC will provide a make-up class for trainees with a reasonable explanation for their absence, subject to resource availability, and the make-up class will only be arranged once. If the trainee is absent from the make-up class arranged by the HKIC, it will be considered an unexcused absence. Each unexcused absence will result in a deduction of HKD 2,700 (deducted from the trainee's test pass bonus).
- 5.7.4 After being awarded the graduation certificate, trainees can apply for a trade test exemption through the Student Career Services at the Hong Kong Construction Industry Trade Testing Center and obtain a Certificate Card. This certificate card can be used to apply for registration as a senior tradesman (i.e., "skilled worker").

Construction Industry Council
Approved Technical Talents Training Programmes (CICATP)
Execution Brief for Approved Employer List

1. Background

To address the low participation rate of graduates and employers in the traineeship programs at the Hong Kong Institute of Construction (HKIC), the Construction Industry Training Board (CITB) and the Construction Industry Council (CIC) respectively approved the proposal for the "Traineeship Training Programme (Civil Trades 土工種)" in 2018. The programme was officially named the "CIC Approved Technical Talents Training Programmes" by the CITB in March 2019.

At the end of 2020, the HKIC summarized its execution experience, including the key factor that one of the critical elements for students successfully completing their training was employers having a good training attitude and resources. Therefore, the HKIC established the CIC Approved Technical Talents Training Programmes Approved Employer List. By formulating and implementing an employer evaluation system, the quality and resources of the on-the-job training provided by employers for trainee training were strengthened. This ensures that trainees receive advanced technical training in the relevant trades under suitable project environments and guidance from site trainers, thereby making better use of the HKIC's training resources.

2. Purpose

- i. To identify employers with excellent training attitudes and resources through objective criteria, and to guide HKIC graduates towards long-term development in the construction industry by becoming training programme partners.
- ii. To ensure trainees receive advanced technical training in the relevant trades under suitable project environments and guidance from site trainers.

3. Target Participant

Employers who are about to apply for or are currently participating in CIC Approved Technical Talents Training Programmes.

4. Evaluation Criteria for Inclusion in the Approved Employer List

5. **Application Procedure (Appendix B)**

- i. Employers submit a complete set of application forms and required documents to the HKIC (see Appendix A).
- ii. The HKIC reviews the submitted documents and, upon confirming preliminary compliance with registration conditions, arranges for dedicated personnel along with two assessors (see Appendix D) to conduct an on-site assessment and complete the evaluation report section (Appendix A).
- iii. The dedicated personnel of the HKIC submit recommendations for approval or disapproval of the application to the Subcommittee on Construction Industry Council Approved Technical Talents Training Programmes and Collaboration Schemes (Subcommittee) for approval; or provide suggestions and follow-up for employers who do not fully meet the requirements.
- iv. All initial or review applications must be approved by the Subcommittee on Construction Industry Council Approved Technical Talents Training Programmes and Collaboration Schemes.
- v. Employers who are approved for the first time to join the list will have an initial validity period of 3 years. Employers can apply for a review within 6 months before the expiration. Approved employers will be granted another 3-year validity period.
- vi. The HKIC adds the approved employers to the list and uploads it to the HKIC website (valid for 3 years).
- vii. Generally, the HKIC will issue written warnings and improvement suggestions to employers who encounter problems during trainee training and suspend their application for training quotas. If the employer still fails to meet the HKIC's requirements within the following year, the management will recommend and approve further regulatory actions to the Subcommittee, including immediate termination of their registration and a 24-month ban on reapplying to join the list and participate in training.
- viii. Employers can appeal decisions regarding the application for inclusion in the list or regulatory actions to the HKIC (see Section 6 for procedures).

- ix. Employers who submit applications to join the programme on or after March 19, 2021, must be approved to join the list before starting training. Employers who submitted applications before March 19, 2021, and were approved to join the programme can automatically join the list for 2 years, after which they must undergo a review according to the above procedures.

6. Appeal Procedure

- i. The employer may appeal to the HKIC regarding the review results of the application for inclusion in the register or decisions related to regulatory actions against the employer.
- ii. The employer may submit a written appeal to the HKIC within 21 calendar days after receiving the HKIC's written notification.
- iii. The HKIC shall convene the first appeal review meeting within 60 calendar days after receiving the application and the required supporting documents (the total number of meetings will be determined as needed).
- iv. The appeal panel must include a chairman and two members (Appendix C), appointed by the CITB. They must declare any conflicts of interest related to the appeal case.
- v. The appeal review meeting must be conducted with the chairman and two members present. After reviewing relevant documents, hearing reports from the HKIC personnel, and obtaining all necessary information, the panel will deliberate and make a decision.
- vi. If the chairman and members of the appeal panel do not agree, the decision will be made by majority vote.
- vii. The appeal panel may uphold, overturn, or modify the decision made by the specialized committee.
- viii. The HKIC must notify the appealing employer of the decision in writing within 21 calendar days after the appeal panel has made its decision. This decision is final.

7. Benefits of Establishing a Register of Approved Employers

- ix. Employers can closely collaborate with the HKIC to expedite the matching of suitable graduates, thereby increasing the success rate of recruiting outstanding graduates and retaining them for company development. This can strengthen talent development and management, as well as enhance the establishment and inheritance of technical teams within the organization.
- x. The HKIC's online recruitment system (Career Portal) will display the employer's registered status, allowing all graduates to prioritize these employers when browsing job vacancies and applying for positions.
- xi. Employers will be invited to participate in HKIC-hosted events and become important partners (such as employer seminars, workshops, job fairs, site internship programs, and trainee training).
- xii. Approved employers can use the register logo on their websites and promotional materials, making it easier for the public to identify quality employers.
- xiii. Employers with outstanding training performance may receive commendations/invitations to attend employer recognition ceremonies.
- xiv. Enhancing the organization's image and visibility.

Guidelines for Industry Assessors of Approved Employer List

1. Background

Under the list system, industry assessors participate in employer visits and assessments to effectively evaluate the company's training resources and the suitability of its personnel. These tasks are carried out by the HKIC personnel along with two assessors who have training experience and recognized technical qualifications. Therefore, it is necessary to establish a list of assessors for the Approved Employer List system under the supervision of the "Subcommittee on Construction Industry Council Approved Technical Talents Training Programmes and Collaboration Schemes" (Subcommittee).

2. Categories of Industry Assessors

Assessors are appointed from external independent individuals to ensure the professionalism and credibility of the assessment work. The list of assessors will become effective after being reviewed by the Subcommittee.

Assessors must agree to and comply with the Code of Conduct (Attachment 1) and the Conflict-of-Interest Disclosure Policy (Attachment 2) as stipulated in the Construction Industry Council document number CIC/CMT/P/034/15 and complete the relevant appointment confirmation and contact information forms (Attachment 3).

Assessors are appointed by the Subcommittee from the following categories:

- a) Management personnel or officers of chambers of commerce, trade unions, or associations recommended by the chairman of the Subcommittee; or
- b) The chairman and members of the Trade Advisory Panel; or
- c) Outstanding alumni of the academy

Assessors must meet the following requirements:

- a) In the past two years, when serving as members of the HKIC or trade test committees/working groups, their attendance rate must not be less than 50% (e.g., if the Trade Advisory Panel holds four meetings a year, the member must attend at least two meetings); and
- b) If they have previously served as assessors, they must not refuse to undertake the relevant work more than three times during their term.

Functions of Assessors:

- a) Conduct on-site assessments of applications for the Approved Employer List according to the relevant assessment criteria approved by the "Construction Industry Training Board" and the "Subcommittee," as arranged by the HKIC, to effectively evaluate the company's training resources and the suitability of its personnel; and
- b) Provide improvement suggestions and opinions to the audited employers; and
- c) Complete the employer audit report; and
- d) Identify and recommend areas for improvement in the assessment criteria for consideration by the "Subcommittee."
